

OBSERVING THEIR GOLDEN WEDDING

Mr. and Mrs. John E. Milton
of Maplewood Avenue
Married 50 Years.

Today, Tuesday, Mr. and Mrs. John E. Milton are quietly observing the fiftieth anniversary of their marriage at their pleasant home on Maplewood avenue.

John E. Milton was born in Rowley, Mass., the son of John E. and Harriet (Brown) Milton. His education was gained in the public schools of his native town and at Dunsmuir Academy. After completing his schooling he followed farming for a time, but when he was twenty years old he came to this city and found employment in Raynes' ship yard and later in Royce & Littlefield's yard, where he worked until the opening of ship building on the Piscataqua river. He then found employment in the ship factory operated by J. K. Mallory and after the factory was burned he went to Pawtucket, R. I., and worked for the same company at their factory.

In the early 70's he entered the employ of the old Eastern railroad and for three and a half years as station agent at Ipswich. For a time, he was a passenger brakeman, running with the veteran conductor, Elbridge Towle, on the first train to run between Boston and North Conway that was equipped with the Miller platform buffer. Ill health caused him to give up railroad work for a time. He however again entered the employ of the road in 1876, being assigned to clerical work at the company's new freight house at Charlestown, Mass.

He returned to this city in 1880 and for the next ten years was employed on the navy yard and at the Portsmouth shoe factory.

In 1891 he engaged in the grocery business at Christian Shore and conducted the same for a period of twenty-one years, disposing of his business last summer.

He is a member of New Hampshire Lodge, No. 17, I. O. O. F., Strawberry Bank Encampment, Canton Center, P. M., Union Rebekah Lodge and Sag.

BATH HOUSE WALK FALLS

Forty Little Fellows Hurlled Into the Merrimac River and Eleven Known to Have Perished

Lawrence, Mass., June 30.—A narrow wooden walk leading over 15 feet of water to the municipal bath house in the Merrimack river gave way today under the stamping feet of a crowd of impatient boys and at least eleven of the little fellows were drowned. There may be other bodies in the stream.

The boys ranging in years from 3 to 15, had come down an incline and gathered on a level stretch of plank in front of the bath house. There they waited for William Blythe, the bath house keeper to open the door. No one knew tonight how many there were in the party that clamored for Blythe to "open up," but it is thought that 40 is a conservative estimate.

There was a ball game in the city this afternoon and many of the eager youngsters figured on seeing that after having their afternoon dip. Eight minutes before the appointed hour for opening, the boys were letting loose their exuberance by jumping up and down and tumbling over each other. Suddenly the supports at the foot of the incline sank. A second later the walk extension dropped like a trip door and the boys rolled in the water.

There is a swift current at this point, drawn by the falls of a quarter of a mile below, and the boys were caught in this. Many of them could not swim. Witnesses on the river bank say that all disappeared in a flash but a moment later there was a struggling mass on the surface. The stronger ones who could swim struck out bravely for the bathhouse and a score of the number saved themselves. Their cries brought aid and several were pulled ashore, five unconscious

forms were brought to shore and two of these were finally resuscitated. Efforts to restore the others were futile. It was thought at first that only three were drowned, and it was not until two hours later that the probable loss of life was realized. John Mooney, 8 years of age, awoke the police to the true situation. In the crowd of distracted friends on shore he missed his chum and set up a cry: "I don't see Rolfe. He must be drowned."

Then hoals and grappling irons were brought and the river bed dragged. When the work ceased late tonight eleven bodies had been recovered.

Most of the youths were from the mill district and when word of the accident reached these homes, thousands crowded the river bank. In the confusion fathers and mothers lost track of their children and fear that they had been in the swimming party caused them to beseege the police with inquiries and this led to conflicting reports of the number drowned. The known dead are:

The Dead

William Balster, 10 years.
Joseph Hennessy, 5 years.
Joseph Woltena, 5 years.
Joseph McCann, 15 years.
Joseph Cole, 8 years.
William Thornton, 10 years.
Flower Pina, 11 years.
Roland Jones, 9 years.
Joseph Housinger, 8 years.
Secunda Albino, 16 years.
Arnaldo Gaudette, 10 years of Fitchburg.

Young Gaudette was visiting friends in the city on his vacation and had

COLONIAL DAMES HOLD MEETING IN THIS CITY

Mrs. Clark Re-elected as President for the Ensuing Year.

The twentieth anniversary of the National Society of the Colonial Dames of America, in the State of New Hampshire, was observed on Monday afternoon, in the Moffat House on Market street, the official home of the society.

The annual business meeting was held and the ensuing officers were elected: President, Mrs. Arthur E. Clarke, Manchester; vice presidents, Mrs. Nathaniel G. White of Little Bear's Head, Mrs. Emil Richter of Portsmouth; corresponding secretary, Mrs. Josiah Carpenter, Manchester; recording secretary, Mrs. George Dana Towne, Manchester; registrar, Mrs. David Cross, Manchester; treasurer, Mrs. James K. Cogswell, Portsmouth; historian, Miss Mary A. D. White, Portsmouth.

After the business of the evening was transacted a dainty luncheon was served.

Hoyt's orchestra furnished the music and dancing was enjoyed. About one hundred were in attendance, including many Dames from other states.

The Moffat House, sometimes called "Ladd House," was built by John Moffat in 1753-58, and is confided to the use and care of the Society of Colonial Dames by the children of Alexander Hamilton Ladd, and grandchildren, fifth in descent, of John Moffat.

John Moffat's daughter, Katherine, married William Whipple, the signer of the Declaration of Independence, and made their home in the Moffat house. A beautiful and choice portrait of William Whipple now hangs on the wall of the dining room.

At the present time, the house is practically unchanged. The quaint landscape paper on the walls of the hall is coeval with the house. The grand staircase in the hall is very beautiful; the historic garden is being restored, although not changed, the house is filled with fine old furniture and interesting portraits of distinguished men and women; the beautiful mantelpiece in the drawing room, which was brought from the ancestral home in England, deserves to be especially observed, as it was carved by the famous carver, Grindling Gibbons. It is the aim of the society to have this house carefully cared for.

SWAT THE FLY.

The Herald Will Aid in the Campaign Against These Pests.

"Swat the fly" is now the slogan and to aid in the campaign against these pests the Herald will present to all who call at the Herald counting room a wire fly killer. Last year the Herald distributed two thousand of these fly killers and so popular were they with the good people of this city that the management has procured another supply for this season. Now is the time to commence an earnest campaign against that common pest, the house fly, and all should avail themselves of the Herald's offer to assist in the work of extermination.

ON PENSION LIST.

William Carr Retires from Work on Boston & Maine.

William Carr of Kittery today retires on a pension from his duties on the Boston & Maine railroad after 30 years service as a carpenter. Mr. Carr began with the old Eastern railroad as a bridge builder. He has served under three foremen, the late William Grant, Albert B. Preble, now retired, and the present supervisor Frank Wherren.

He has the record of being a good mechanic and a faithful worker at all times which entitles him to a well earned rest.

CHANGE OF HOURS.

Street and Water Departments to Have Half Holiday.

By a new arrangement which went into effect today, the men employed in the street and water departments will get a half holiday on Saturday afternoon. The employees now report at 7:15 a. m., instead of the regular hour 8 o'clock and will conclude the week's work at 11:30 Saturday forenoon.

VETERANS AT GETTYSBURG

Those Who Wore the Blue and Gray Again Go Over Those Stirring Scenes of 50 Years Ago

Gettysburg, Pa., July 1.—As the slanting rays of the rising sun were cast across the field of Gettysburg today they fell upon the armies of the North and South. "The reveille sound" ad, and the field washed in blood 50 years ago in the three days battle, which started on the morning of July 1, again felt the martial tread of many feet, that stirred by the cause sacred to them, defied death in the heroic struggle. And as these once hostile forces met in friendly communion on the ground that they consecrated with their blood, there were few who did not recall the closing words of Lincoln's immortal Gettysburg address:

"That we here highly resolve that the dead shall not have died in vain, that the nation shall under God, have a new birth of freedom, and the government of the people, by the people, for the people, shall not perish from the earth."

And today Johnny Reb. and Yankee alike was the guest of the nation. This

was the opening day of the celebration marking the fiftieth anniversary of the famous battle and more than 70,000 veterans of the Civil war were gathered in the huge camp erected near the field. The Blue outnumbered the Gray, but the forces moved over for the opening ceremonies of the celebration with the bands blending "Dixie" and the Battle Hymn of the Republic, with the anthem, "America" now common to all.

Of the leaders in the battle of 50 years ago few are alive today. On the first day of the fight, Major General John F. Reynolds, W. S. Hancock, G. O. Howard, Abner Doubleday, John Gibbons and Carl Schurz were in command. The Confederate leaders A. P. Hill and Richard H. Anderson and R. E. Rodes division commanders. All of them are dead. During the second day General Daniel E. Sickles, was the ranking commander on the Union side. He took a leading part

NEWLY WEDS SURPRISED

Friends from This City Make Unexpected Call on Mr. and Mrs. George Foye.

George Foye of Kittery and Miss Leonora Hall were quietly married at Portland on June 24. The newly weds intended to keep their marriage a secret, but the fact was learned by some of their friends in this city, who on Monday evening invaded their home and showered them with confetti and rice. The party was composed of about a dozen friends from this city who were armed with cow bells and other musical instruments of this nature and on their arrival at the home of the newly weds made their presence known in a forcible manner. Mr. and Mrs. Foye took the visit good naturedly. Before their unexpected guests left for home, they presented the newly married couple with a handsomely framed picture.

ANOTHER MIXUP.

How Much Will It Cost to Be a Primary Candidate.

The publication of the session laws brings to light an incongruity in the provision of the act providing for the election of United States senators by the people which will probably require judicial interpretation before candidates will feel right as to the amount of the fee that they will have to pay to get into the primary lists.

Section two says that all the provisions of existing acts relating to the nomination of governor by direct primary shall apply while section three says that the laws governing the nomination shall apply.

Under the law for the nomination for governor, candidates have to pay \$100; for congress, \$50; and the question which must be determined is which of the two sums shall be taxed.

COMMITTEES SELECTED.

For Lawn Party in Aid of the Mark H. Wentworth Home.

The following committees from the different churches have been selected to act in behalf of the lawn party to be given on the grounds of the Mark H. Wentworth Home: Court street Christian, Mrs. Albert R. Jenkins; Christ Episcopal, Mrs. John G. Yarwood; St. John's Episcopal, Mrs. A. H. Locke; North Congregational, Mrs. James Borthwick; Methodist, Mrs. Albert Shedd; Universalist, Mrs. George D. Whittier; Unitarian, Mrs. John Lefington, Mrs. William G. Marshall; Advent, Mrs. Wiggins; Baptist, Mrs. W. Shannon; Catholic, Mrs. T. A. Henry.

Each church will be solicited to contribute by the respective committees.

Mrs. Horace M. Wiggins is general manager of the lawn party; Miss Stella Webster is treasurer and Miss Emily

RAILROAD MEN VOTE IN FAVOR OF STRIKE

Conductors and Trainmen of
the New England Roads
Nearly Unanimous.

Boston, June 30.—An overwhelming vote in favor of a strike by the conductors and trainmen of the New York, New Haven and Hartford, the Boston & Maine and the Boston & Albany railroads, was announced tonight by union officials after they had completed the tabulation of returns from the three systems.

The vote was taken to enforce demands for higher wages and shorter hours, which have been made on every railroad in the eastern part of the United States.

The result of the balloting which has been taking place for some time were taken to New York late tonight. There, the situation will be gone over by the international officers of the union involved before any further steps are taken.

STEALING A RIDE.

The conductor of the Portland express due here at 10:45 this forenoon reported over the wire previous to the arrival of the train that six boys were on the head end of one of the baggage cars, stealing a ride. Officer West got two out of the six. The other four took to the woods. They had been chasing up a circuit and were trying to get home to Biddeford.

TRANSFERRED TO BOSTON

T. Sullivan for the past year or more government inspector at the plant of the Eastern Oil and Rendering Co., has been transferred to a similar position at Charlestown, Mass. He has been succeeded by W. J. Beck of Boston.

KNIGHTS SOFT FOR SOLDIERS

Hoffman a Puzzler and Struck Out Ten Men and Made Three Assists.

The Knights of Columbus were soft for the Fort Constitution team in the Sunset League schedule on Monday evening being blanked by the score of 8 to 6. The Knights to be sure had a much weaker team in the field and started with Bertwistle pitching but he was hit hard in the second for six runs and Frank Leary relieved him and for three innings Frank managed to escape with but two failures being made from him.

The game never was in doubt however for Hoffman who has proved that he is a good all round player, has later developed as a pitcher and he was a mystery to the Knights last evening. He allowed but one hit made by O'Brien in the fourth and he struck out ten men and allowed but seven men in come to the bat in five innings, Leary and O'Brien being the only two men to reach first out of the sixteen actual plays he assisted in thirteen of them and in addition with two men on bases hit for three bases. Pretty much a one man game.

The Game in Detail.

FIRST INNING

The Soldiers were up and Caffery hit to O'Brien who made a good stop and got him at first, Frederick reached first on Riney's fumble and Kabanaka hit over short that Riney redeemed himself on and Hoffman hit to Bertwistle.

Hoffman was thrown out by Kabanaka and Healey and Mates fanned.

SECOND INNING

The Soldiers made a run away match of this session, Wisconsin hit and went to second on Leary's allowing Bertwistle's throw to go through him, Lahan singled, Walk hit to Bertwistle who forced Wisconsin at third, Lahan taking second on the play. He and Walk started a double steal but Hoffman threw wild to Riney and both were safe, Canuck walked filling the bases, Whitlock singled and Lahan and Walk forced Caffery struck out, Frederick hit for two bases over second the ball taking a nasty bound over O'Brien's head and Canuck and Whitlock scored. Kabanaka walked and Hoffman hit along the first base foul line for three bases scoring Frederick and Kabanaka, Wisconsin fled to Healey retiring the side.

O'Brien was thrown out by Hoffman Riney fanned and Bertwistle fled to Lahan.

Score, Fort 8, Knights 6.

THIRD INNING

Leary went into the box and Bertwistle went to first, Lahan was thrown out by O'Brien, Walk hit to Riney who made a good throw but Bertwistle dropped the ball. An over throw to second placed him safe on third Canuck fanned and Whitlock fled to Bertwistle.

Leary hit to Caffery who fumbled and nearly got his man, O'Brien and Kabanaka fanned and Hoffman was thrown out by Hoffman.

FOURTH INNING

Caffery fanned but Hoffman dropped the ball but got his man at first, Frederick singled past third went to second on a passed ball and in third on a wild pitch and scored on a passed ball, Leary covering the plate and it was a close decision. Kabanaka walked and stole second, Hoffman hit to Mates in deep center, Wisconsin singled over second and Kabanaka scored and Wisconsin a minute later was thrown out trying for a steal to second.

Healey struck out, Mates was thrown out by Hoffman, O'Brien singled to right and went to third on Whitlock's allowing the ball to go

Stovall's Days as Manager of St. Louis Browns Said to be Numbered

STOVALL

St. Louis July 1.—An interesting rumor there is that George Stovall's days as the manager of the St. Louis Browns are numbered. The first rumor in the Browns' household came campaign is said to have taken place when Lloyd Rickart was let out as the club's secretary recently. Rickart was connected with the Browns for several years. Stovall has not made the hit as manager at St. Louis that he did at Cleveland. George's suspension as manager by orders of Ban Johnson for his trouble with Umpire Ferguson early in the season and the

fact that his team has lost steadily this year and appears to be getting further in the rut has caused the manager to lose his popularity. It would be no surprise to St. Louis if Stovall should be released as the Browns' manager. This has been a very bad year for base ball in St. Louis. Both of the losing clubs have had long losing streaks. Friends of Stovall claim he has not been a failure as a leader and that if he is retained as leader next year he will surely have a first division club. They also add that Stovall is the best leader that the Browns ever had.

BATH HOUSE WALK FALLS

(Continued from Page 1.)

gone to the bath house with some of the boys from the house in which his friends lived.

The number of known dead was thought to be twelve up to a late hour tonight, when it was found that one body had been identified by two parents, and the name of Michael Higgins was stricken from the list when the boy appeared at his home.

Exactly what caused the collapse of the walk had not been determined tonight. The bath house had been in use for at least a decade and when an inspection at the opening of the season, a few weeks ago disclosed some rotten planks they were replaced with new ones.

Many of the bodies recovered were found under a corner of the bath house beneath which the struggling children had been swept by the current.

Two of the boys, Joseph Cote and Michael Woltema, were found to be dead after they had been worked over for twenty minutes. Another boy, William Thornton was thought to show a slight spark of life and the police did not give up the fight to save him until after an hour of unrelenting labor. He was believed to be the third and last victim, until John Mooney cried for his child, and grappling irons were sent for.

First one, then another body was recovered. Four were found under the northeast corner of the bathhouse where they had been packed together by the current. Lyman Parker, a member of the Lawrence Canoe Club nearby, volunteered to dive in an effort to locate the bodies. He found three at the bottom of the stream, going down a score of times in the attempt. Toward sunset the number of known dead has been increased to eleven.

A deep sea diver, Frank McDonald, summoned from Boston with his submarine equipment reached the bath house at 7 o'clock and immediately began a search of the bottom of the river. After two hours fruitless work, McDonald suspended operations for the night. He will take up the quest again tomorrow morning with the intention of examining particularly beneath the bath house.

Medical Examiner George W. Dow

examined each body as it was removed from the water and gave a simple report on each of the eleven autopsies as "death, caused by drowning."

An inquest to determine the responsibility for the accident is expected to be called within a day or two. Commissioner of Public Property, and Parks Alfred Bradbury, who has charge of the city's bath house said tonight that he could make no statement as to the cause of the accident, because the construction of the bath house was under the direction of John O. Butterhill, his superintendent. The latter refused to make any statement to examine the collapsed structure.

A rigid investigation will be started at once to determine the cause of the accident. Mayor Michael J. Scanlon announced tonight.

"I have called a meeting of the city council for 10 a. m. tomorrow," he said "and will institute a rigid investigation to determine the exact cause of the accident."

The mayor has ordered that all municipal buildings display the national colors at half staff tomorrow and has requested that private parties show the same tribute to the little ones whose lives were so suddenly taken from them."

How Newspapers Can Aid Advertisers.

A former advertising manager of one of the largest drug concerns in the United States, in a forceful speech before a New York Club, said newspapers were in a position to render advertisers valuable co-operation.

It was his experience that his salesmen were not able, generally speaking, to report conditions in local fields as they should be reported.

The editor of the local paper, he maintained, was best qualified to supply national advertisers with reliable information concerning his particular locality.

This is a subject worth thoughtful consideration by publishers generally, and it should also bring to the mind of the national advertiser the universal usefulness of the daily newspaper—the one medium of communication with everyone, everywhere.

TO UNVEIL TABLET TO PAUL JONES

The members of the Helen Seavey Quilting Party are planning for the unveiling of the tablet on the Paul Jones house on the morning of the fourth.

The tablet which will be descriptive of the residence of John Paul Jones in the Lord mansion on Middle street pending the building of the Ranger, will be placed in a conspicuous place on the house.

The members of the Paul Jones Club, S. A. R., have been invited to attend and a pretty little ceremony has been arranged for.

JUDGE SIMES REMEMBERED BY BAR ASSOCIATION

Presented With a Gold Cane on Retiring From Office With Old Police Court--New District Court Convenes Today.

The Portsmouth police court ceased to exist at midnight last night and today its place will be taken by the Portsmouth District Court. The last session of the old court was held on Monday afternoon at the police court room and it was somewhat in the nature of a surprise to Judge Thomas H. Simes, who retired from office with the old court, for when he arrived for the customary sitting at 2:30 he was surprised at the number of attorneys present, and once the court was in session he was relieved of any suspense when Hon. W. E. Marvin, in behalf of the Portsmouth Bar Association in a very fine speech presented Judge Simes with a gold headed cane of a very handsome and costly design. In his address he took occasion to speak of the excellent record made by Judge Simes as police court justice and of the regret that the members of the Bar had that he was retiring. County Solicitor E. L. Gupthill, who was unable to be present wrote a very fine letter which was read and there were present in the court room, Judge Calvin Page, the newly appointed District Court Judge, Harry K. Torrey, Attorneys John L. Mitchell, City Solicitor Harry W. Peyser, Samuel W. Emery, Ralph Gray and Albert R. Hatch.

The cane which is the gift of all of the members of the Portsmouth Bar is a very fine stick and the gold head is inscribed with the following "A mark of esteem from the Portsmouth Bar Association to Judge Thomas H. Simes of the police court of the city of Portsmouth, whose office and court terminates this day, June 30, 1913."

Judge Simes was greatly moved by the gift and feebly responded, thanking the members of the Bar for their kind gift and support.

Judge Harry K. Torrey was invited and occupied a seat with Judge Simes on the bench and the retiring Judge had three cases to dispose of. James Murray who was given a chance a few days ago was again before the court and went to the County Farm for six months. John Christerson a sailor charged with evading his fare on the Boston and Maine railroad, was fined \$10 and cost which was suspended on condition that he pay the fare, which he did. Timothy Galvin a Sunday drunk, pleaded not guilty and as the wit-

nesses were not present the case was continued over to the District Court. Judge Torrey will begin his work today and he has announced a change in the time for holding court which will be hereafter at nine o'clock in the morning instead of the afternoon. That is, all cases where the night officers are witnesses will be continued from the morning to the afternoon session so as not to break the officers' rest. As the greater number of cases do not require the officers' presence, this will mean but a few afternoon sessions.

Judge Harry K. Torrey has reappointed R. D. McDougall as Probation officer his term having expired with that of Judge Thomas H. Simes.

THE NEGRO, NORTH AND SOUTH

His Opportunities for Employment. Etc.--A contrast, Writ Sarcastic

(New York Commercial)

Negro chauffeurs are no longer permitted within the hotel-flavored precincts of many of the best garages of New York and each day sees necessities to the list of these auto storage places where the brother in black is not wanted. Not merely on the "blue-gum" has the ban been laid. The chauffeur may be only a quadron, an octoon even, but standing firmly by the adage, "a nigger is a nigger even if you whitewash him," the garage proprietors refuse sanctuary to the machine he drives.

Whether the white chauffeurs are banded to either in league against the black is not clear, but certain it is that garage proprietors are daily inviting auto owners with negro chauffeurs to store their machines elsewhere. "If I keep your machine," one auto owner was informed, "I shall lose six or eight now stored here. It's a business matter with me."

Next we shall hear of the formation throughout the South of associations for the advancement of the interests of the Negro of the North, and the Southern white man will embark on a campaign of education. Each year sees fewer avenues of industry which the Negro may enter in the North, for the North has not yet learned that the Negro may be kept in his place with-

out divorcing him from his foe. And why shut the kitchen door in his face merely because the parlor door is slightly ajar?

Back in 1847 the Negro was started in his journey to social equality in the industrial freedom forty acres and a mule. The mistake was made by the colored brother apparently for he assumed that these things were to come to pass all over the country instead of merely in the subjected district south of the Potomac and the Ohio. In arrogance born of the ignorance in which heartless slave drivers of the south held him he rashly has assumed that in the incinerator of emancipation he could look for social equality outside the lecture platform and industrial freedom other than the freedom to look for another job in some other neighborhood and in some other line of endeavor.

Really things are coming to a pretty pass here in the North. New York city's Negro population is growing steadily and as fast as he is driven from one occupation the black is entering those fields which either because they are new or because hitherto they have been occupied entirely by whites have not yet been closed to him. From the housebuilding trades and the mechanical fields he is largely excluded. The chauffeur is a development of the last ten years and it is only lately that he has become a major. Office work thus far is limited to office boy and messenger service, but if this thing keeps up he will develop into a bookkeeper, office manager or cooperation director, while his sister will be seeking employment as a hello girl or stenographer. But the sense of justice so strongly characteristic of the white brother in this neck of the woods will soon see to it that the Negro wins the privilege of holding down any position which the white man does not need, provided that the white man is entitled to every available job in every available line of work.

The South handles its problems in its own way and there the downtrodden black seems really contented with the fact that no protest ever is made that he is invading the white man's fields. He keeps to his own, but the Southern white has arranged matters so that there is work for every Negro who will work. The housebuilding trades, the mechanical fields, and occupations of many kinds are open to him while the fact that socially and otherwise he is kept apart has developed a large and growing field of financial and commercial endeavor in which the better minds and hands so that there is work for every Negro banker, real estate operator, retailer, lawyer, physician, dentist, and publisher are found in every Southern town and a negro board of trade can usually be found doing its part in the promotion of the community interest.

But then, everybody knows that the South mistreats its Negroes while the North calls him Mister, and sympathizes.

IN THE MOVING PICTURE WORLD

Statistics show that the United States is a greater consumer of coffee than any other nation of the world. Our imports of the little bean, run into the millions of dollars each year, and yet most of us do not know whether it grows on a tree or a vine. In reality, it grows on a bush and its culture is a remarkably interesting subject for study. The Lubin Company has just made a film entitled "Coffee Industry in Jamaica." The scenes were all taken on one of the largest plantations. In that beautiful island, commonly called "The Pearl of the Antilles," Jamaica, although belonging to Great Britain, lies very near our own shores, being just south of the island of Cuba, in the Caribbean Sea. Kingston, its capital, is the chief port of call for all steamers between the Atlantic ports of the United States and the Panama

BULGARIANS ATTACK SERVIANS AND GREEKS

Belgrade, Serbia, June 30.—The Bulgarians this morning opened an attack on the Serbian troops along the whole line in Macedonia, according to dispatches from the Serbian headquarters.

The publication of the news created immense excitement in the Serbian capital.

The Serbian Premier, N. P. Pachitch, who was addressing the Serbian Parliament in support of his policy of accepting the arbitration offered by the Russian Emperor when the news of the breaking out of hostilities was brought in by an official of the Foreign Office hurriedly left the chamber and proceeded to his office.

The excitement in the House was so great that the sitting had to be suspended until tomorrow, and the fate of the Pachtich Cabinet remains undecided.

The opposition members demand guarantees that the territory in Macedonia now held by the Serbian troops shall be annexed.

According to a later message the Bulgarians also attacked the Greek troops along their whole front. Large masses of troops participated in the fighting, and both sides fought stubbornly.

HEAVY FIGHTING GOING ON
Berlin, June 30.—Heavy fighting is in progress in Macedonia, according to dispatches received here. Hostilities opened between the Serbians and Bulgarians in the neighborhood of Lipl and between the Greeks and Bulgarians in the vicinity of Drama.

FIGHTING NEAR SALONIKI

Sofia, Bulgaria, June 29.—More fighting occurred today between the Greek and Bulgarian troops some distance to the east of Saloniki.

According to the Bulgarian accounts, the Greek soldiers tried to cut the Bulgarian communications along the railroad from Seres to Drama, but were driven off by the Bulgarians after they had burned a village.

At 2 o'clock this morning the Serbian advanced posts before Lipl were attacked by the Bulgarians and a couple of hours later the Bulgarian artillery was brought into action.

The fighting gradually spread until it was proceeding at Rega, Boukva, Zlobova, Neugai and Palanovca.

The Bulgarians appear intent upon securing the railroad.

**STUDENTS TO GET
MILITARY TRAINING**
Washington, June 30.—Returns to the War Department thus far show that 165 students, representing 48 schools and colleges, have qualified to attend the military camp of instruction which opens on Gettysburg battlefield July 7, at the close of the veterans' reunion, and continues until Aug. 15.

The institutions which will send students are Harvard, Princeton, Yale, Georgetown, George Washington, Lehigh, Pennsylvania and Ohio Northern universities; Kentucky Military Institute, University of Arkansas, Columbia University, Oberlin College, University of South Carolina, Virginia Military Institute, Agricultural and Mechanical College of Texas, Rutgers Scientific School, Clemson Agricultural College, Washington and Lee University, Pennsylvania State College, Georgia Institute of Technology, La Fayette College, University of Ver-

mont, Westminster College, St. John's Military Academy, the Citadel, South Carolina, Marietta College, University of Missouri, Western Reserve University, Boston College, Charleston College, Washington and Jefferson College, New York University, Williams College, Stevens Institute of Technology, College of the City of New York, Dartmouth College, Amherst College, Norwich University, Swarthmore College, Pennsylvania Military College, New Jersey State Normal School.

The following high schools are also represented:

Bingham School, North Carolina, Washington (D. C.) high schools, Hanover high school, Pennsylvania; Troy high school, New York; Xavier high school, New York; Phillips Exeter Academy.

The student soldiers under the tutelage of army officers, will receive instruction in camp sanitation, military training, personal hygiene and the principles of military art. In the latter connection a timely demonstration will be a repetition of the campaign of Gettysburg 50 years ago.

A similar camp for instruction of students of the Pacific Coast will be held at the Presidio of Monterey, Cal., from July 1 to Aug. 8. About 100 students have enrolled in this camp.

**LOCKE GIVES UP
NEWSPAPER INTEREST**
Dover, June 30.—This morning Sheriff Fred E. Goodwin placed an attachment for \$300 upon the machinery alleged to be owned by Sperry H. Locke and John Smith at No. 2 Second street in this city. The writ is in favor of Mrs. Warren T. Billings and is returnable at the September term of the Superior Court.

We are in receipt of the following communication from the recent proprietor of the Evening News. It may be of interest to the general public as the name of Mr. Locke appears at the head of the editorial column of that paper as the responsible head of the concern:—

"Notice."
To the Dover Evening News, Warren T. Billings and others now publishing the same:—

You are directed to remove my name from the editorial column of the paper and in other ways to refrain from holding me out as in any way connected with the further publication of the paper.

Yours truly,
Sperry H. Locke.

June 27, 1913.

To Foster's Democrat:—The notice above may be of interest to publish in your paper.

Sperry H. Locke.

For any pain, burn, scald, or bruise apply Dr. Thomas' Electric Oil—the household remedy. Two sizes, 25c and 50c at all drug stores.

DON'T FAIL TO ATTEND

The County Carnival to be held at the University field on Wednesday, evening, July 2, promises to be the novelty of the year. The flying machine that crossed the English channel will be exhibited as well as many other new features. Take the children with you. Admission to grounds 10c. 1913 P. 1 or 8.

Portsmouth, N. H., Tuesday, July 1, 1913.

Give Us More Plain Men.

The happiest man in the world is the common, everyday chap who makes his own living, pays his own bills and has the respect of his neighbors. He saves a little money as he goes along, but doesn't try to get a corner on his local output and he is not a slave to ambition or society. He never expects to wear out his trousers in the senate and when he glides out of bed in the morning he never wastes any time trying to pick out the right tint of socks, suspenders and necktie that will blend with the general effect.

He only wears a high collar when he feels like it, and when his pet corn begins to jump, he jerks out his knife and cuts a four inch gash in the side of his shoe and nothing is said about it in the local paper. He never has to sit up at night to poltice his conscience. He believes in the doctrine of live and let live. When he encounters one of the needy he doesn't stammer with his pocket book. The plain plug of a man is happy because he is satisfied and he doesn't spend half of his time yearning for something which his salary will not permit him to buy. Give us more plain men and the world will be better.

The Hill Towns.

Go back to the home town or to some other of the hill towns of New England and become leader of the people for the good of the communities, says President John M. Thomas to the graduating students of Middlebury college in the Vermont town of the same name. No sounder advice than that has been handed out to any of the young people this summer. The most important point the president made on which to base his advice is that the hill towns of New England have been for more than half a century losing their population, and he added: "Leadership is all that is needed. Who of you will go to live in a hill town in Vermont, not where there is the best job, but where there is the greatest need? One man of the right calibre and the right power could lift a whole community. One community so inspired would change a whole county, and one county leading the way, the whole state would follow."—Worcester Telegram.

With True Spartan Courage.

Many a soldier who bravely stood at his post during our civil war, is covered with badges. We would not take one from him, he merits them; but many an "ordinary" woman has stood at her post of duty for thirty, forty, or even half a century, fighting with sickness, poverty and discouragement and with true Spartan courage kept the wolf from the door and saved the lives of a large family of children. The man who saves one life receives a prize for bravery, his picture appears in the metropolitan papers, and he wears a medal which says to the world that he was brave. And he was. But the woman who has saved the lives of many is given no badge, and seldom a word of commendation. These "ordinary" women may not receive a Carnegie badge for bravery, but "He who marks the sparrow's fall" will certainly reserve a jeweled crown for them in heaven.

A Small Percentage for Good Roads.

In round numbers the country spends a quarter of a billion dollars every year on its army and navy, the biennial appropriations carrying almost two dollars for military and naval purposes for each dollar devoted to other expenditures. If, in round numbers, the country spends \$300,000,000 every year on its army and navy, it is terrifying to contemplate the expenditure of \$6,000,000 (the amount prayed for by a congressman) on good roads—2 cents for good roads and 98 cents for soldiers, forts, sailors and battleships. What think ye?

Don't Be a Knocker.

If your neighbor is prosperous, let him prosper. Don't grunt, growl or grumble. Say a good word for him and let it go at that. Don't be a knocker. Your turn will come. No one man is the whole show. If you see that the town is moving along nicely, feel good about it. Help things along, shove a little. Try to get some of the benefit yourself. Don't stand around like a chilly old cadaver. Don't waste our time feeling sore because some fellow has a little more sand and sense than you have. Do a little hustling yourself. Don't be a knocker.

NEW HAMPSHIRE REPUBLICANS AND HARMONY.

The Mirror feels that it is voicing the sentiments of the rank and file of the republican voters in New Hampshire in saying that it is high time that all of us get together and iron out our differences, bury our animosities, reorganize our bureaucracy and re-establish ourselves as a united, strong,

harmonious and ambitious party, determined to rid the state of the crowd of incompetents and malcontents that is now in power.

We all know what inextinguishable damage and disgrace has come to the republican party in this state through lack of harmony.

Inexplicably lamentable is the situation.

We have been split wide open, and

Colonel Roosevelt to Rough It In Grand Canyon Of the Colorado With Two Sons as His Pals.

Photo of Roosevelt copyright by Underwood and Underwood.

Colonel Theodore Roosevelt planned to start July 8 for a two months' outing in the Grand Canyon of the Colorado in Arizona. He decided to take Archie and Quentin, two of his sons, with him. The purpose of the trip was purely for pleasure. The colonel denied that he was going to do anything so strenuous as to hunt for a lost tribe of Indians, as was first reported. He said he wanted to get away from the cares of his work and bury himself in the west. He will return to New York late in September and spend a week there before he starts on his Argentine trip. The colonel is here shown as he looks when roughing it. A view of the Grand Canyon is also shown.

the democrats are in the saddle, but fast riding, we believe, to their destruction. If we only quickly readjust ourselves, tighten up our belts and pitch in unflinchingly and determinedly to fight them, standing shoulder to shoulder, with a solid, unwavering, confident front.

"To do this the factions which have so sorely torn the party asunder must line up, be patriotic, brave, high-minded, self-sacrificing and forgiving. They must place party devotion above personal ambition and revenge and thirst for office.

They must be willing to retract past errors and pledge their devotion to duty, and that duty must be clearly seen as a helping to bring about a new birth of the party, a resurrection, which shall free it from strife, hate, bitterness, jealousy, mud-slinging, vilifying and narrow notions.

Both stalwarts and progressives must come down from any stiff, exclusive, repellent, arrogant attitude, and talk and walk together sensibly, serenely, mildly, with peace in their hearts, fight in their blood and victory for their battle cry.

Both sides have made mistakes, and these mistakes should be acknowledged and remedied.

There must be a good deal of give and take on each side.

Concessions must be made all around, and some of them will be very unpleasant and rankerous.

Early feuds, however, ought to be forgotten, and everything should be done to bring about a new birth of the party, a resurrection, which shall free it from strife, hate, bitterness, jealousy, mud-slinging, vilifying and narrow notions.

The readjustment and unification should be approached with that conviction firmly and unalterably in mind.

No one ought to feel that there will be any loss of self-respect, or slaking of ambition, or diminution of dignity in coming half way to treat with those who have differed.

A big devotion to party success should follow above everything else.

"The democrats must be ousted from power" should be the watchword.

The Mirror has been as strong and outspoken as it knew how in its condemnation of certain men and methods during the past few years.

No newspaper in the state, perhaps, as our files will show, has been so aggressive against one faction of the republican party as has the Mirror, but we feel that the hour has arrived when all of us who claim to be republicans should wipe off the slate, blot out the past, quit calling names, unite under a common banner, and go forward to whip the enemy that encompasses us about.

Some men on both sides who are leaders must undoubtedly for the common good cease to be detractors and mandatory and eliminate themselves.

New leaders will have to be selected. Many expellatory acts will have to be performed.

And it will come hard to them. Whatever is necessary to be done that the party may rise in vigor as one man, every individual, high or low, rich or poor, in office or out of office, should be willing, nay, anxious to do.

In this direction victory lies.

Who can lead the party to success in the next state election? Is the question we often hear asked.

The answer to that is easy, it seems to us.

We know of no man today who is so pre-eminently fitted to reunite the republicans of New Hampshire as is Secretary of State Edward N. Pearson.

His popularity was unmistakably proven when he was re-elected for office by the legislature, followed by his tenacious hold upon the members in

the senatorial contest, from which he unfortunately withdrew.

We believe Mr. Pearson's candidacy should be agitated and lustily agreed upon early by the republican voters of the state.

Such an agitation and understanding would be a strong step towards the perfection of the now wide-apart factions.

In him is a fine and large element of strength and harmonization.

Both sides know him to be a good republican, loyal and clean, free from entangling alliances, and one who has never done anything to antagonize either wing.

He can easily defeat any candidate the democrats can put up, if we all unite on him.

To us he looks like the Moses to lead a disrupted party out of the wilderness.

Naturally he would not care for the honors and small emoluments of the office, with its one term tenure. His choice unquestionably would be to keep the job that he now has, and which he presumably could hold on to indefinitely.

We believe, however, that a re-election of the true situation of things political would stimulate him to do his duty and let the future take care of itself.

If the call be strong and general, he will not fail to hear and heed it.—Manchester Mirror.

CUT THE PRICE OF LAMPS.

Beginning today the Rockingham Light and Power Company have cut the price of Tungsten lamps. Fifteen, 20, 25 and 30 watt lamps drop five cents. The same cut is made on 60 and 100 watt lamps; 15 cents on 150 watt, and 10 cents on 250 watt. The reduction will be permanent and old lamps are to be returned to get the benefit of the new rate.

The strawberry season is now at its height.

CURRENT OPINION

Votes for Women as Necessary as the Broom.

A vote is as necessary to the cleanliness of my home as a broom. A home cannot possibly be clean without a vote.

We may get the vote throughout the nation if we exert what some men call our sweet womanly influence—that is, if we dance as did Salome for the head of a man. In other words, we will flirt ourselves into the vote.

Ants seem to be entirely in the east, and since I have not a few I have been told so many phish and fauney lies about suffrage for women that I feel I must relate them.

They say women with votes neglect their homes. I do. I neglect my home about twenty minutes each year while I go around the corner to vote. Once I neglected it half an hour while I copied the recipe for tomato soup from a neighbor I met at the polls. That was a most romantic tomato soup I served next day.

Do the women of nonvoting states spend more than twenty minutes each year away from home playing bridge? I wonder.

They say women want all the offices. Well, the men will also retain the vote, and I don't know that it would do much harm to have a municipal housewife at the head of city government.

Remember, that what America wants today is a spiritual spotlight on municipal and national offices, and the men, clever as they are, cannot furnish it.—Mrs. Helen King Robinson, State Senator, of Colorado.

OBSERVING THEIR GOLDEN WEDDING

(Continued from Page 1.)

university lodge, A. O. U. W.

The married Miss Hannah J. Shannon, daughter of the late John and Hannah Shannon, the ceremony taking place July 1, 1863, and being performed by Rev. Joseph White.

As the result of the union they had one daughter, who died in early life. Mrs. Shannon is a member of Union Rebekah Lodge and both she and her husband have been attendants at the Advent church for many years.

Hosts of friends will extend to the couple hearty greetings on their golden wedding anniversary.

PUT THIS UNDER YOUR HAT.

There are many ways to celebrate the Fourth, but if you are patriotic don't forget to wear the red, white and blue. You can get silk boutonniere flags for that purpose at Tom C. Larkley's.

Now is the time to have your house cleaned by the vacuum process. Drop a card to F. A. Robbins, 151st, Me. Tel. 309-33.

The ice cream in brick form sold exclusively at the Titmus Drug store has made a hit with those who appreciate a rich pure ice cream. Try it with your dinner.

Donn's Regulets are recommended by many who say they operate easily, without griping and without bad after effects. 25 cents at all drug stores.

THE REPORTER

Vincent Asper would like to be a newspaper reporter. News item who must toll have been denied. The pleasure you indulge in, Vincent, on the madness and the pride of seeing one's own stuff in print! To think of wonder that you yearn to turn from foolish, futile sport, and start in as a cub to earn The glory they have who report.

In fancy we can see you now, With book and pencil as you run To learn just why and find out how The fearful riot was begun; In fancy too, we picture you Ejected by the millionaire, But having gained the interview For which you trailed him to his lair.

And in imagination we Behold you in your evening duds, Let into high society And mingling with the blushing buds; We hear the fat old men relate Their ancient stories stale and flat, And then in whispers, murmur: "Wait Now please don't go and publish that!"

Ah, Vincent, have you ever thought Of dangers that reporters face 'Tis not like sailing on a yacht, Serenely forth from place to place. The insults of the proud and rich, The high officials' cold contempt, These are among the things from which Reporters never are exempt.

The star reporter does not rise By easy bounds to eminence He must be patient, faithful, wise, Alert, courageous and intense; To him must ever be denied The pleasure you engage in Vincent— But, oh, the triumph and the pride! Of seeing one's stuff in print! —S. E. Kiser.

NEW IDEA FOR DINING TABLE

Runners Are Largely Taking the Place of the Round Centerpiece and the Luncheon Cloth.

Many housewives are discarding round centerpieces or luncheon cloth when dressing the dining table, and are substituting two table runners. These harmonize with the straight lines of the furniture, so popular at present. For summer dining rooms and verandas there is nothing so artistic as the long, graceful table runners.

Tan and white linen are used for the runners and the ends are hem-stitched, and above this is embroidered a design in satin or cross-stitch.

Measure the width of your table and allow from 12 to 14 inches more to hang down at each side when putting the linen. After stitching the hem transfer the design above it.

Cross-stitch is effective on coarse linen, and a pretty border shows baskets of forget-me-nots. Three basket motifs are arranged on each end, and the basket portion is done with green and yellow mercerized cotton. The flowers are worked with pale pink in the padded satin stitch, and the leaves are green. Connecting each basket is a festoon of ribbon, which should be worked in the padded satin stitch. Pale pink is the color used for the ribbon, and a yellow French knot forms the center of each floweret.

When working the cross-stitch great care should be observed to keep the upper threads running in the same direction.

Table runners of dark brown ramie linen or pongee are a favorite covering for the living room or library table, with embroidered ends done in rich, vivid colors.

Apple Puff.

Sift together one and one-half cups flour, one teaspoon baking powder and one-half teaspoon salt. With a wire egg whip beat one tablespoon cold, hard butter into the flour, and add sufficient milk to make a rather stiff batter; grease little custard cups, put a tablespoon of batter in the bottom, then one tablespoon grated apple, then another of butter; when all the cups are filled, arrange them in a steamer, cover tightly and place over boiling water and cook three-quarters hour; serve hot with creamy sauce. Any fruit can be substituted for apple.

Polish for Olecloth.

Clean the olecloth with some nice soapy water and a soft scouring brush. Put some jelly into a jelly jar and fill with water. Stand whole in a saucepan of water on the fire. Boil till the glue is melted. Stir with a stick (it only needs to be very thin); take a clean, soft piece of rag and dip in the glue. Rub it over the olecloth, taking care not to miss any parts, and leave it until quite dry. The result will be a nice shine equal to new, and no fear of one's slipping; as is often the case when the olecloth is polished with beeswax.

Lemon Biscuits.

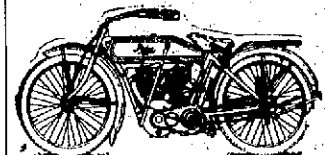

Into three and a half pounds of flour rub one pound of butter, mix in one and a half cups of sugar, and when the whole is absolutely smooth, add eight drops of lemon essence, a teaspoon of honey, water and sufficient milk to form a thick dough. After breaking the dough smooth, divide it into pieces about the size of a walnut. Flatten and cut out with a blunt cutter, and bake till lightly colored in a moderate oven. Serve cold, when they are delicious, and keep in a tin canister.

KITTERY

Breezy Items From the Village Across the River.

Kittery correspondent's telephone, 775-M; P. O. address, Box 303.

On Wednesday last, at the bride's home in Gorham, occurred the wedding of Harry H. Watts of Kittery, to Miss Louise L. Brackett, daughter of Mr. and Mrs. Edward Brackett, and for the past two years a teacher at the Mitchell school at Kittery Point. The ceremony was performed by Rev. Thomas Shims of the Congregational church. Mr. and Mrs. Watts are now in Kittery and will be at home to their friends after August 1.

Regular midweek prayer meeting this evening at the local churches.

Charles Trafton spent Sunday with relatives at Hampton Beach.

Messrs. John and James Ward of Brooklyn, N. Y., are at Frank Trafton's for the summer.

Mr. and Mrs. George Hayford of Portsmouth have opened their summer home, "The Gophers' Nest," at the Intervale.

Beginning Saturday, July 5, the coal yard of George D. Boulter will be closed Saturday afternoons during the months of July and August.

Boatswain Frederick Muller and family on Monday moved from Mrs. M. F. Wentworth's tenement on Wentworth street to the house on Love lane recently purchased by them.

Word has been received here of the death recently at his home in Biddeford of Capt. Amos R. Goodwin, for many years a clerk on the navy yard and a resident of this village. He was a veteran of the civil war. His wife passed away several years ago.

Frank Reynolds of Cambridge, Mass., who is passing the summer at Hampton Beach, spent Saturday with his aunt, Mrs. Charles Trafton of Love lane.

Mr. and Mrs. Robert Pierce and daughter Althea of New York and Mr. and Mrs. Fred Pierce and daughter Helen of Dover were guests on Sunday of Mrs. Helen A. Johnson of Love lane.

Miss Ella Morrell of Waltham, Mass., is the guest of Mr. and Mrs. John Marshall of Stinson street.

Mrs. James M. Melton of New Castle, N. H., visiting her daughter, Mrs. Ralph Clark of Latta avenue.

Messrs. Joseph Boulter and Charles Hendry of Somerville, Mass., are enjoying camp life at Eagle Point on Spruce Creek. They will be joined later by Mrs. Boulter, Miss G. I. Pickles and Mr. George Dearborn of Somerville.

The boy scouts enjoyed an all day hike on Monday under the leadership of the scout master, Rev. A. J. Hayes.

Mr. and Mrs. Frank Page of Gilmanton are guests of Mr. and Mrs. Thomas Ritchie of Commercial street.

Mrs. Mildred Penfield of Berkeley, California, who is making an extended

tour of the country, is the guest for a few days of her cousin, Mr. and Mrs. Fred W. Maby of Love lane.

OBITUARY

Harry Goodwin

Harry Goodwin son of Thomas Goodwin of South street died early Monday morning at the Portsmouth Hospital where he had been under treatment for typhoid fever. He was about 33 years of age, a native of this city and a well known and likable young man. For many years he was night operator at the local telephone office and he was one of the best that ever held that position. He has of late been employed as a bottler at the Frank Jones Brewing company's plant.

Captain Amos G. Goodwin

Captain Amos G. Goodwin, a Civil war veteran, and one of the best soldiers that Biddeford sent to the front is dead at his home from a complication of diseases. His condition had for a long time been serious and of late such as to cause his relatives and friends much apprehension, if not alarm, at that announcement of his death occasioned little surprise among those who had been acquainted with the state of his health. This year for the first time in many years Captain Goodwin failed to turn out with his comrades in the observance of Memorial Day. Amos Goodwin was born in Biddeford April 2, 1836, and was a son of Thomas J. and Sally Gordon Goodwin.

He attended the public schools of his native city, afterward taking up the study of law, but he never entered into practice of his profession, abandoning law for civil engineering.

At the outbreak of the Civil war he enlisted in Co. G, 13th Maine Regiment, and went to the Gulf afterwards engaging in the Red River campaign.

He rose to second and then first lieutenant and was afterward made captain of his company, his qualities as a soldier attracting the attention of his superiors. He was also attached to other commands and did service in one of the department's ranking as major.

Upon returning to Biddeford he engaged in civil engineering and then received an appointment to the Kittery navy yard where he held the position of head clerk for about 25 years.

John G. Oliver

Died in Goffstown, N. H., June 30. John G. Oliver formerly of this city, aged 88 years. The remains will be brought to this city on Wednesday for burial.

MAY INCREASE THE WAGES OF NAVY YARD EMPLOYEES

Those at Washington Have Complain that the Cost of Living Has Increased

Washington, June 30.—The question of increasing the wages of all navy yard employees will be taken up Wednesday. All the commanders of the yards along the Atlantic coast will assemble here to discuss the matter. While making an inspection, four along the Pacific coast, Secretary Daniels will take up the same proposition and ascertain the requirements of the service there.

Secretary Daniels appeared before a joint session of the House and Naval Affairs Committee today and explained that employees at the Washington navy yard contended that the cost of living in this city is ten per cent higher than other places.

The naval appropriation bill which becomes effective tomorrow carries an item of \$240,000 for ordnance and ordnance supplies. This fund was intended to pay the employees here an amount equal to the added cost of living. This will be done Mr. Daniels said.

At the meeting Wednesday the commanders will consider the necessity for increasing the wages of employees in other places outside of Washington.

VETERANS AT GETTYSBURG

(Continued from Page 1.)

In the celebration today. The ranking Confederate officer now alive is Major General E. M. Lawlison of Alabama and now of Barto, Florida. He commanded General John H. Hood's noted division after Hood was wounded and carried from the field. General Law is a member of the Gettysburg commission from Florida. Generals Lee and Pickett who gained undying fame by their work for the Confederacy have long been dead. The leaders are gone and many comrades in the ranks who came out of the awful conflict have died in passing years. But it was the spirit of the entire armies, the flower of the manhood of the sixties that met on the field today. The battle was fought over a thousand times, and with the forming of the force in battle line for the chief spectacle of the day, a scene such as practically never before was enacted in the world was witnessed by thousands attracted to the reunion. Over the field now marked by marble shafts commemorating the deeds of valor of the armies, the two forces moved to the positions they occupied on the last day of the fight. The thin gray line advanced and as the Union veterans awaited them at the "High Water Mark" and other points reached by the different divisions, every face showed the emotion stirring in the breast of each veteran. Tears, hand-clasps and embraces, awaited the advancing gray army instead of solid shot and double canister at ten yards, such as Major Cowler's battery poured into the ranks of Pickett's gallant column 60 years ago as it marched steadily onward in the face of a fire that mowed men down by hundreds.

Tomorrow will be Military Day. Major General Leonard M. Wood, chief of staff will be in command and government troops will participate. Thursday, July 3 will be Civil Day, and the governors of many states are expected to be present and will be received by Governor John K. Tener of Pennsylvania. National Day, July 4 will be marked by the laying of the cornerstone of the great peace memorial. Former President Taft will be the chief speaker of the day and Chief Justice White and other notables will participate. General Alfred B. Beers of Bridgeport, Conn., Commander in chief of the Grand Army of the Republic and General Bennett G. Young of Louisville, Ky., who heads the United Confederate Veterans were in command of the two armies of peace. The veterans wore badges with the likeness of General U. S. Grant and General Robert E. Lee on opposite sides. Many wore scars of the terrible three-day's conflict. Today's celebration was a worthy one to be held at the resting place of those who gave their lives that the nation might live.

PERSONALS

Miss Helen Houston of Brunswick, Me., is the guest of Miss Annie H. Fowler of State street.

Mrs. G. H. Hill of Middle street left today for Ogunquit where she will remain until November.

Mr. and Mrs. Henry Green, Henry D. Green Jr., and Miss Marion C. Green of Worcester, Mass., are at the Berry Cottage at Rye North Beach for the season.

Mrs. David Stewart of Baltimore, nee Alice Gerry of Portland and Portsmouth has engaged apartments at the Rockingham Hotel for the summer. She is the eldest daughter of the late Hon. Elbridge Gerry and Mrs. Gerry who was a daughter of the late Hon. and Mrs. Richard Johnson of Portsmouth, and has ever held high regard for the place of nativity of her mother.

KITTERY POINT

What Is Happening In the Harbor Town.

Mr. and Mrs. Judson C. Irish are entertaining friends from out of town. Miss Virgie Skinner has returned to her home in Portland, after visiting friends in town.

Frank Call passed Sunday with his family in North Berwick.

Charles Philbrick of Kittery was a visitor in town on Sunday.

Mr. and Mrs. Scott Owen of Concord, N. H., arrived on Monday to occupy the Hollins cottage on Moore's Island for the summer.

Mr. and Mrs. Frank Locke are entertaining relatives from out of town. William Seawards of Portsmouth spent Sunday with his sister Mrs. Joseph Blake.

Miss Marion Drake has returned to her home in North Hampton after visiting her grandfather, Hiram Tobey.

Mr. and Mrs. L. T. Dewar have been recent visitors in York.

Charles Tobey Jr., passed Sunday in Kennebunk, Me.

Mr. and Mrs. Fred McMullen of Portsmouth were the Sunday guests of relatives in town.

Mr. and Mrs. Charles T. Tobey and son Kenneth, passed Sunday with relatives in York.

Arrived: Schooner Fannie Palmer from Baltimore.

Schooner Van Allens, Broughton from Baltimore.

Schooner Rebecca G. Whidden, Calais, Me., for Milford, Conn.

Schooner Samuel Cashner, Jr., Calais, Me., for New York.

Power yacht J. Eagle Lee, from Boston.

L. H. Sawyer and Captain C. C. Sawyer were visitors in Boston on Monday.

Mr. and Mrs. Frank Morse entertained friends from out of town over the week end.

Mr. and Mrs. Amos Ames have returned from a visit to relatives in Newton, N. H.

Prayer meeting will be held in the vestry of the Free Baptist church on Tuesday evening at 7.30.

The Christian Endeavor prayer meeting will be held at 7.30 Tuesday evening in the First Christian church, Miss Adelaide Bond, leader.

Frank W. Keene has returned from a short visit to his parents, Mr. and Mrs. H. C. Keene of Bidham.

Mr. and Mrs. Howe of Wellesley Hills, Mass. have arrived to occupy the cottage of Thurston Patch for the summer.

The two big five masted schooners, Fannie Palmer, and Van Allens, Broughton now in the lower harbor left Baltimore June 20, and arrived here with less than an hour's difference in their sailing time.

Harry Witham has taken employment at the store of Frisbee Brothers.

Mrs. Myrtle Symonds remains seriously ill at her home.

The subject of the prayer meeting at the Free Baptist church vestry on Tuesday evening will be, "Pressing forward toward the mark for the prize."

The lawn party on the parsonage grounds of the First Christian church announced for Monday evening has been postponed.

MADE A CRIME

Out in Ohio Those Who Annoy a Bridal Party Will Be Punished

Portsmouth, Ohio, July 1.—Beginning today is a time to bother a bridegroom or a bride in Portsmouth. No matter if the bridegroom or bride don't prosecute. If anyone is seen by a policeman playfully hitting either bride or bridegroom in the eye with an old shoe; if anyone is seen hurling rice at the couple; or if anyone in the crowd that sees the couple off at the station indulges in more than a quiet kiss or a hearty handshake and is caught, it will be the lookout for the perpetrator. For Mayor Fred N. Tynes and Director of Public Safety Fred A. Hutchins, have had passed an ordinance prohibiting all the time honored slap-stick stuff that has heretofore accompanied weddings.

"Jay towns can put the stuff over," said Mayor Tynes today, "but it won't go here. A man would rather remain single than marry and be subjected to a college hazing stunt."

THOMPSON HEADS HARDWARE TRUST

New Britain, Conn., July 1.—Henry C. M. Thompson, of New York, today became president of the \$12,000,000 American Hardware Corporation, succeeding Charles M. Jarvis, resigned.

Mr. Thompson was graduated from Yale with the class of 1888. Soon afterward he was engaged by P. & F. Corbin, heads of the American Hardware Corporation, as a traveling salesman. Fifteen years ago he was appointed Chicago manager for the Corbin concern. He then became associated with Hoggroot Brothers Company, with whom he has been identified for about ten years.

C. O. D. PARCEL POST.

Washington, July 1.—The collection delivery feature was added to the parcel post department of the postal service today. Under the new regulations

a parcel bearing the required amount of parcel post stamps may be sent anywhere in the country, and the amount due from the purchaser collected and remitted by the postoffice department. The parcel must bear the amount due from the addressee, and the collection will be made if the amount is not in excess of \$100. The fee, 10 cents, is to be affixed by the sender in parcel post stamps, and will insure the parcel for no more than \$50. The collection feature was not provided when the parcel post system was put in operation, because it was desired to simplify the work of postmasters as much as possible in the first days of the service.

NEW OFFICERS.

Civic Association Elect Officers for Ensuing Year.

The Civic Association held its annual meeting at Miss Martha S. Kimball's, South street, on Monday afternoon at 3 o'clock and the following officers were elected for the ensuing term: President, Mrs. Mary I. Wood; vice president, Mrs. D. W. Badger; secretary and treasurer, Mrs. J. W. Shannon; directors, Mrs. Annie H. Hewitt, Mrs. Irene Louise Hannaford. Miss Hiss spoke on the social work in Philadelphia.

Miss Kimball served lead tea and wafers.

NEW CUSTOM RULES.

Custom Districts Reduced From 162 to 49 in Order to Concentrate.

Washington, July 1.—The new rules marking a sweeping change in the customs service went into effect today.

With the reduction of the number of customs districts from 162 to 49, the keynote of the new regulations is a concentration of customs administration in the hands of the collectors at the headquarters of each district.

Collectors of customs along the Canadian border, who for years have enjoyed perquisites from the sale of manifestos and other customs blanks, no longer will receive such gratuities, which, at some ports, where the statutory salary of the collector has been comparatively insignificant, have made the aggregate compensation of the collector \$15,000 to \$20,000 a year.

By the reduction in customs districts, 113 collectors automatically will lose their jobs, and other changes in personnel to effect a large saving.

CANADA'S BIRTHDAY.

Ottawa, Ont., July 1.—Canadians today are celebrating their 46th anniversary, marking the union of the five British North American provinces. Appropriate exercises in honor of the event are being held throughout the dominion.

Will Inspect Yards

Chairman Padgett and other members of the House Committee on naval affairs will leave on the yacht Mayflower July 9th for an inspection of the navy yards and stations at Norfolk, Philadelphia, New York, Boston, Portsmouth, Newport, New London, proceeding as far north as Frenchman's Bay, Me. The party will be away two weeks.

FIFTEEN NEW MEMBERS

At a special meeting last night of B. P. O. E., fifteen new members were initiated into the order. After the meeting lunch was served.

BIG ARMY OF BLUE AND GRAY AGAIN IN ACTION

20,000 Veterans at Gettysburg and All Busy With Reunion--Governors and Generals a Plenty.

Gettysburg, Penn., June 30.—Twenty-five thousand veterans in blue and gray, the biggest army of the kind that has been gathered together since the Civil War, were today on the field of Gettysburg to the call of remembrance and the battle of blood and pain in a score of years.

Veterans who at about sundown until late at night were up long before the sun climbed over the hills of the Blue Ridge. Before the electric lights of this modern camp were turned out to make way for the sun, the veterans were singing the songs of war time and the wide streets of the tented city echoed with the "Ki-Yi" of the "Johnny Reel" and the hoarse yell of his brother from the north.

The Regular Army men in charge of the camp expected 15,000 veterans to come into Gettysburg today, and by tonight they will be prepared in tent and mess more than 40,000 men without hitch or delay.

There was no set program today and the veterans were left free to look up old friends, swap stories of old and enjoy themselves in any way they see fit.

Just as soon as the roll call was disposed of, the inspection of the battlefield and the retelling of the story of Gettysburg began, with all the pointed criticism that the private soldier knows so well how to make.

"I haven't seen a job yet who didn't charge Round Top and take it all by himself," said a lanky Southerner as he wandered into the quarters of the Pennsylvania contingent.

"No, and I haven't seen a Yank who didn't break up Pickett's charge by his own self," said a snuffing Pennsylvanian, as they shook hands.

Joint Reception by Cavalrymen.

The only set event today was the joint reception by the survivors of Gen. Buford's cavalry and the southern remnants of Gen. Wheeler's cavalry to the citizens of Gettysburg. It was Buford who discovered the Gray Army advancing on Gettysburg on the morning of July 1, 50 years ago, swinging up the Chambersburg pike preliminary to the greatest battle of the war.

It was Buford who stubbornly fought the advance of Gen. Heth's division of the 3d Confederate Corps on the July morning until Gen. Reynolds arrived and took command, and Wheeler's men helped to make that joint of fair a warm one.

Relatives of Gen. Meade, Gen. Longstreet, Gen. Pickett and Gen. Hill arrived today, and were given quarters in the town. Col. J. M. Schoonmaker, chairman of the Pennsylvania Commission, announced today that 35 Governors had accepted invitations to be present some time in the week.

Brig. Gen. Hunter Liggett assumed command of the veteran camp today and Maj. Normoye of the Quartermaster's Corps gave up the reins of office. Gen. Liggett appointed as his adjutant, Lieut. Simon Bolivar Buckner, son of the Confederate General.

The Wisconsin veterans, who arrived today, were accompanied by Gov. McGovern. The Governor reported that although the train was delayed the veterans stood the journey well and were in fine spirits.

Reunion of Army Nurses

There are gathered upon a quiet little street of the town seven gray-haired women who, 50 years ago, acted as volunteer nurses for Union and Confederate veterans alike.

Perhaps to one of the seven are the recollections of that time more vivid than they are to Mrs. Salome M. Stewart, a native of Gettysburg who, except for an interval of a few years, has lived in the same house which was used as an emergency hospital during the famous battle.

At Mrs. Stewart's home has been established the headquarters for the surviving nurses of the war between the states. One arrived yesterday was Mrs. Charles E. Day of Philadelphia, who was among the first to respond when the news of Gettysburg filtered in over the wires. The others expected to participate in the anniversary are Miss Cornelia Hunsicker, Philadelphia; Mrs. Margaret Hamilton, Wakefield, Mass.; Mrs. Mary Stevens, Penobscot, Me.; Mrs. Annie Irving, Newark, N. Y.; and Mrs. Helen Cole, Shagborton, Pa.

Among the notable arrivals at the veterans' camp yesterday was Gen. Daniel R. Stedden, who declined quarters in favor of a tent pitched upon the site where he lost his leg during the battle. Gen. Stedden was escorted to his tent by a cavalry drill and was cheered lustily by veterans of both the blue and the gray.

In Confederate General's Uniform. A picturesque personage who attracted much attention was Gen. Felix H. Robertson of Texas, who came to town clad in the full uniform of a Confederate general. Gen. Robertson who is proud of the fact that he was at Fort Sumter when the first gun was fired, also declined to accept the hospitality of the Pennsylvania Commission, which had provided a comfortable room for him in the dormitory of Pennsylvania College, saying he preferred to share the camp life with his men. The same attitude also was assumed by Gen. A. J. West of Atlanta, Ga.

Among those registered at the headquarters of the commission on the campus of Pennsylvania College are Gen. Charles of Iowa, Gen. Tillson and Col. Herman W. Allen of Vermont, Judge R. M. Gibson of Oakland, Cal., E. L. Hawk, a commissioner from Sacramento, Cal., P. W. Carterman of New Orleans and J. W. Patterson of New Hampshire.

United States Senator Penrose arrived from Philadelphia late last night and will remain until Thursday when he will leave for Erie to participate in the celebration of Commodore Perry's victory.

Joint Headquarters for Old Foes. Col. Charles H. McDowell of Chicago has brought from that city a tent which will serve as headquarters for the Iron Brigade and Pettigrew's North Carolina Brigade. These brigades fought each other in the first day's battle and their reunions are expected to be of peculiar interest. Col. McDowell's tent is the only one in the camp not furnished by the Government.

The Virginia Confederate veterans a big traided were given an enthusiastic reception at the railroad station in town. Men and women shouted and cheered and waved handkerchiefs as the train passed slowly by, and the veterans, clad in gray, leaned out of the car windows and cheerfully returned.

Gov. Tener of Pennsylvania motored over from Harrisburg today and occupied his tent in the grounds of Gettysburg College. Battery H, 3d Field Artillery, U. S. A., fired the customary salute. Battery H claims to be the lineal descendant in batteries of Califa Battery, which opened the artillery fighting 40 years ago. There are now four Governors in camp.

The Pennsylvania Executive made a motor trip over the battlefield shortly after his arrival, and the other Governors looked it over during the day. Gov. Tener received formal calls of other Governors late today. The suffragists do not intend to overlook any opportunities, and have arranged for quarters near the big tent in the veterans' camp, where the principal exercises were to be held. They expect to attack the veterans from every side.

BEAUTY HINTS

Women who are going to wear the flous, the fluy skirts, the kimona sleeves and the quaint little Directorate coats of this season will do so at their peril if they don't know how to manage their shoulders and dispose of their arms. The day of the square-shouldered, taller made girl is over temporarily. Petite anatomy must adapt itself to the sloping shoulders, slender armed type.

"How can one achieve this?" a graceful votary of fashion was asked recently.

"Oh, it isn't really difficult if you put your mind to it," she replied, and I assure you that a great many women are putting their minds to it, and

WASHINGTON GREATLY UPSET BY LOBBY CHARGES

Washington, June 30.—A searching investigation of the so-called "underground system" at the Capitol, not only by the Senate lobby committee, but by a select committee of the House also, promises to be the first result of the sensational charges by Martin M. Mulhall, who claims to have been the general field lobbyist for the National Association of Manufacturers.

Mulhall's startling allegations that Representatives and Senators and high officials of the Government had been "bribe" or "influenced" that the "lobby" conducted its operations from a room in the Capitol, paid money to employees there, took an active hand in making up committees, and went out actively in the political campaigns to defeat Congressmen who opposed legislation the "lobby" wanted, have thrown Congressional circles into an uproar.

Congressmen named in the Mulhall charges are issuing statements, some of them denouncing the allegations as "malicious lies." "Spoken" Clark issued a statement last night confirming the charge that the "lobby" had worked for his defeat. Many Congressmen mentioned, however, who feel that they have been brought in without any specific charge against them, declare they will not be satisfied with the Senate lobby committee's investigation alone, but will insist on a select committee of the House to sift the charges.

The Senate Committee, however, in its haste to get on with its work, is already served upon Mulhall to be followed by others for the men named in the published statements. Chairman Overman believes that when his process servers get through they will have secured a document to bring in material for an investigation covering the last 10 years' doings at the Capitol, at least. If there is any doubt of the authority of the Senate committee to investigate that Mr. Chairman Overman intends to have the Senate extend its powers.

Mulhall's sensational statements were almost the sole topic of discussion in official circles today.

going in for a few simple exercises and studied attitudes, there are some hints which if followed faithfully will help considerably.

"The first is mandatory. You must sit up straight. That's a necessity. The woman of 1913 should cultivate the almost backward tilt from the waistline.

"Then she should be careful how she turns herself. Speak of the next woman you meet and not how she turns her shoulders. Does she swing around bodily, moving her whole figure with an awkward jerk or does she turn slowly and deliberately with a seeming careless grace?

"If she adopts the latter course you may be sure that she is determined to wear flous and kimona sleeves as they should be worn, and she is training her shoulders.

To Achieve Sinuous Grace. "An artist and recently he rejoined beyond words in the present styles, because he hoped that they were going to force women back into the discarded. He gave me some shoulder lessons. Here are some of the things he taught:

"There are certain attitudes that you really must avoid if you are going to live up to the artistic demands of this year's fashions. They are attitudes which make the shoulders look irregular and rob them of any pretense of grace.

"One is sitting with the hands on the hips. This absolutely destroys the line of beauty.

"Another is lifting or shrugging the shoulders. Nothing so distorts them.

"A third is resting unevenly upon a chair with only one shoulder against it.

"Of course it is difficult at first to remember all these things, but you'll be surprised how soon you acquire them. However, I must say that I think it is inconsiderate of these tyrants, our fashion fabricators, to test us from our square broad shoulders effects and drag us back to the early Victorian curves and dapple we had so scornfully abandoned, just as it was inconsiderate of them to allow us to stride along in wide skirts and then suddenly hobble us.

NOTICE.

The attention of citizens is hereby called to the following notice. The discharge of firearms of any description within the described area to note.

From Market Square through Market street to foot of Hanover, through Daniel to Penhollow, through Pleasant to State, through Congress to Middle from Pleasant on State to Middle, is positively prohibited at all times.

The discharge of any sort of fireworks in any other part of the city of Portsmouth before Thursday night at 8 o'clock, July 3, 1913, is also prohibited.

Any person violating this order will be prosecuted to the full extent of the law.

Per order,
MICHAEL HUNGEY,
City Marshal.

Representative Sherley said today that he proposed to ask the House on Wednesday to authorize an investigation of its own, and he would bring up the question as a matter of the highest privilege affecting the membership of the House.

Chairman Henry of the Rules Committee declared that any resolution for investigation of the Mulhall charges, if referred to his committee undoubtedly, would be acted upon immediately. He said he favored an investigation.

President Wilson Gives Views.

President Wilson discussed today the Mulhall charges briefly with the Washington correspondents, and said he believed the lobby on tariff legislation had ceased to "embarrass any body but itself."

When the President made his first declaration that "a numerous and insidious lobby" was operating in Washington he had no idea that such charges as made by Mulhall would be brought out, but he added he was in favor of investigating all charges, and that no doubt the Senate committee would have a free hand.

The President told his callers that the accusations in the Mulhall statement had been called to his attention just before their publication. It was learned today that Senator Overman's attention had been also called to a portion of the charge.

Chairman Overman called his committee together for a short executive conference early today, and at its conclusion announced that a full investigation of the Mulhall charges had been agreed upon.

"We will go to the bottom of the charges," he said, "and while I have no doubt the committee has the authority, if it has not we will have the authority extended."

It was decided that no meeting of the committee will be held until July 8. Charges by Chairman Lovett of the Union Pacific board that certain men in New York have been impersonating Congressmen, in which the names of Edward Lauterbach and David Lemar were brought in, will first be taken up, and the Mulhall

BRITISH BATTLESHIP CLAIMS THE TARGET RECORD

Washington, June 30.—The British battleship Orion, which was at the top of the list of ships armed with the 13 5-inch gun in last year's battle practice, has just completed this year's test with continued success.

The actual figures of her practice are, of course, confidential, but it may be said that she has broken all "records" and that, unless the firing of other ships is very exceptional, her performance cannot be surpassed. This is the third occasion on which the Orion has recently carried out special gunnery tests. She took part in a competition with the Thunderer when the latter was fitted with Sir Percy Scott's director, that test being confined to a comparison of the two systems of aiming. In the one ship all the guns were laid by an officer at the director, and in the other by individual layers at each gun. In the circumstances, the system of simultaneous firing exhibited manifest advantages, but it was felt by many naval officers that in a trial under more difficult conditions the Orion might have made a better showing.

After the director trials the Orion carried out experiments to test certain parts of the Pollen automatic fire control system, an account of which appears for the first time in the current issue of the Naval Annual. These tests were particularly interesting, not only as indicating the advantages to be obtained by using the Pollen automatic change-of-range and bearing clock, but because of the unusual conditions under which they were carried out. The Orion ran at a far higher speed than is customary at battle practice, which with the course chosen for the target, resulted in a very high rate of change and the tests included an attempt to keep the target under fire while the firing ship was under full helm. The success of the Orion in maintaining continuous hitting under these conditions is held by many naval officers to suggest that the almost universal held conception of the tactics which must prevail in battle requires modification.

Writers of every nation who have attempted an analysis of the conditions which must prevail in action have maintained that in order to hit the enemy continuously the ship must be kept on a steady course, the fleets moving in the same direction on approximately parallel lines, so as not to interfere with the fire-control. The experience of the Orion, however, when only fitted with a portion of a scientific fire-control system, indicates that continuous hitting can be insured in spite of changes in the course. Possibly, when the rest of

the Pollen system is tried the highest changes of range and direction will be tackled without difficulty, and the necessity for keeping on a course parallel to that of the enemy's line during action will no longer exist. It does not appear that on the third occasion the innovations made in the December tests were repeated, yet it is likely that if they had been, the Orion using the Pollen clock would have recorded an equally good percentage of hits to that which has been obtained under the earlier conditions of service battle practice.

M'LAUGHLIN TO PLAY IN FINALS

Wimbledon, Eng., June 30.—Maurice E. McLoughlin of San Francisco, the young American lawn tennis champion, today brilliantly cleared another fence barring his way to the title of all-England champion, which is practically accepted as the world's lawn tennis championship, by beating the formidable J. C. Parke, Irish and Scot fish champion, in three straight sets in the semifinal round. The score was 6-4, 7-5, 6-4.

Americans on the ground were ready before the match to wager the Statue of Liberty on the chances of their champion, and as soon as the match started there was never a doubt as to who would win. McLoughlin in recent years had so enthusiastically gathered round the center court on the championship ground to witness the struggle.

The American champion, with his terrific hitting, was too fast for Parke, and his panther-like activity, especially noticeable during the second set, drew roars of applause from the spectators.

Parke started well, flustering the British onlookers by taking the first game, which he finished with a winding net cord stroke. The next two games were taken by McLoughlin, who, coming close to the net and using his favorite cross shots, quickly established a lead of three games to one.

Then the Irishman rallied and with a series of beautiful passing drives kept up to 3-4 and then to 4-4. As soon, however, as the Californian fell back and adopted his opponent's tactics he won the next two games and 12th set.

The second opened evenly, each winning his service until the seventh game, when McLoughlin won on the Irishman's service. This and the following games were full of excitement. Applause followed the American as he darted from one side to the other of the court, again and again making seemingly unplayable shots.

Parke picked up spasmodically, but from the 10th game he appeared outclassed, and McLoughlin remaining at the net, had his man all over the court before scoring his winning smash.

In the third set Parke again won with his service. The American appeared to be taking things easy. He missed a lot of chances and seemed to be playing with his opponent, but a reserve of superiority was always forthcoming at crucial moments. Parke led at 3-2 off a love service, but the Californian easily won the sixth game and followed up by taking Parke's service. With the games at 6-3 in favor of the American, Parke made a final effort, and by fine driving took the score to 5-4; but this was the end. The American easily won his last service and the right to play in the final for the title.

Stanley N. Doubt, the Australasian Davis team captain, and Oscar Kreuzer, the German, will contest their semifinal round tomorrow.

Dyspepsia is America's curse. To restore digestion, normal weight, good health and purify the blood use Burdock Blood Bitters. Sold at all drug stores. Price \$1.00.

VETERANS HAVING WAR TIME EXPERIENCES

Gettysburg, Penn., June 30.—It is another scorcher here today, with the thermometer soaring into the 90s, but there is a brisk west wind blowing, which is proving a great relief to the veterans.

The old soldier is indeed having a hard time of it, as yesterday scores were overcome with heat and the hospitals were filled with patients, while after sundown last night the thermometer took a drop, and the veterans with only one blanket apiece, were chilled to the bone.

Ambulances were kept on the jump all night and at the present time, noon, over 50 are in the various hospitals the following being from New England:

Maine—Andrew Leary, J. B. Turner, George Rich, Melvin Joy, Thomas Doyle, Moses Larrabee.
New Hampshire—George E. White, Irwin G. Cate, Warren P. Hodge, Francis Terry and Andrew P. Gilman.
Vermont—Francis Fisher.

These men are scattered at the various hospitals throughout the field, and have just been reported at headquarters, no case being serious.

The experience of the last 24 hours has proved sufficient for scores of veterans, and this morning the railroad station was crowded with veterans homeward bound.

It is indeed pitiable to see many of the comrades being led round by the Boy Scouts. Hundreds were found wandering around long after midnight being unable to find their quarters.

Mrs. Langstreet, the widow of Gen. Longstreet, is expected at the Rogers house this afternoon where she will be the guest of Carr's Brigade, a tent having been pitched on the lawn for her accommodation.

Capt. T. P. Sullivan of Post 71 and his wife were on the car which met with a head-on collision yesterday, when several persons were injured, but fortunately both escaped with a shaking up.

THROWING THE BOOMERANG

More Knack Than Muscle is Required—Undoubtedly Most Remarkable Although Crudest of Weapons.

Boomerangs are undoubtedly one of the most curious and interesting of the most ancient and primitive weapons, and that have been found about the world considering their crudeness. The tales that have been told about the feats that can be performed with them by an expert are not myths by any means.

An Englishman who has been investigating the subject in Australia and who has reported his results and made exhibition throws for King George, says that selecting a boomerang of suitable shape and by knowing the knack of giving it just the right twist the natives of Queensland and New South Wales can make them do things so startling that they seem bewitched.

The boomerangs are usually made from a limb or root of a tree that has the proper crook, or sometimes they are made by heating a green stick in the fire and then bending it. They are worked to the desired shape by scraping with flint instruments and smoothing with bits of glass. They are usually made rounding on one side and flat on the other. One form of

boomerang used in war has a hook at one end.

Then this instrument is thrown at an enemy he puts up his own boomerang to ward off the blow. This action causes the hook to catch on his own boomerang and brings the boomerang, weapon sideways in such a way that it deals him a hard blow on the side of the head almost in spite of anything he can do to parry it.

Making the boomerang perform a figure eight in the air is comparatively a common feat and all sorts of complicated figures are produced including a double eight. The test of a sure thrower is to make the stick come back obediently to his feet after engaging in these flights, so he will only have to stoop to pick it up.

One very useful throw which is often used, by the natives in hunting wild fowl and other small animals consists in standing behind some barrier which cuts off the view and then hurling the instrument in a direction away from the game so that it then turns in its flight and goes straight among them, where it performs a number of gyrations and is pretty sure to cause considerable carnage.

Amateurs have often tried to learn the trick of throwing a boomerang, but it takes long practice to do much with it. There are a number of boomerangs from Australia and the Pacific Islands in the Government collection at Washington and several scientists have succeeded in throwing them in such a way at least as to make every one within half a mile fearful of being hit. They are a rather ticklish instrument, to fool with, for unless a person is acquainted with their way they are liable to turn in the air and give some one a rap when least expected.

It is impossible to make the boomerang work in a high wind, though a little breeze is necessary, as in kite flying. You throw across the wind; that is if the wind is from the west you throw to the north or south, according to whether the boomerang is flattened on one side or the other. There is no absolutely standard shape for a boomerang, as many people think. In fact many different shapes are used, according to conditions.

In throwing the instrument more knack than actual muscle is required though the movement must be rapid and straight. It is thrown at an angle usually of about 45 degrees in the air, and just as it leaves the hand it is given a slight upward jerk which imparts to it a spinning motion. It is this spinning motion, like the curve of a thrown baseball, that produces the eccentric results.—Pathfinder.

NAVY MEN UNDER ARREST

Newport, R. I., June 30.—Two enlisted men, Coxswains Zaski and Sienos, are under arrest on board tender Severn of the submarine flotilla, while the officers are investigating a wholesale theft of junk and fittings from that vessel, used in submarines, sold here and elsewhere and in part recovered by the police through Inspector John Tobin. In the meantime the search for castings and other metals used in the submarines is in progress here and in Fall River.

Discovery came about early Saturday morning when a small boat was found near the Naval Hospital, containing some of the plunder, which apparently had been left during the night with the idea that the Newport agents of the culprits on board would remove the contents. But the signals or the understanding between the submarine and land forces miscarried, and, as a result the thefts were disclosed.

Some of the plunder includes castings of the submarines which carry a patent.

How long these thefts have been going on is a subject of investigation by Lieut. Lewis D. Cauter, commanding officer of the second group of submarines.

FUNEST HAS CLOSED

Denver, Col., June 30.—Although the 31st Bundes turnfest of the North Am

erican Gymnastic Union closed yesterday, thousands of visitors who came here to attend the affair remained over today to visit various points of interest in Colorado. It is estimated that nearly 50,000 attended the festival from every state in the Union. Of that number about half will remain in the city for another week.

WHY THE AIRMEN ARE NOT AFRAID

Claude Grahame-White Discusses Peculiar Sensations in Mid-Air.

The marvelous feat of the French aviator des Montenis in flying from Paris to Warsaw in thirteen hours gives thinness to the discussion by Grahame-White in the National Review of the question of the sensations of the aviator when flying high above the earth. He writes:

"What impresses an aviator, usually quite early in his flying career, is the sense of safety which comes to him, even when a thousand feet or more above the earth. That this should be so, is not altogether surprising. The modern aeroplane, when it is in flight, suggests nothing of insecurity, or possible mishap. There is the strong, unceasing roar of the motor—the purposeful rush, borne forward, thus smoothly, and irresistibly, and yet with his craft instantly responsive to the merest touch upon its levers, the aviator feels master of the situation—in a word, the conqueror of the air."

"But, in reality, his conquest is no more than partial. . . . At 12,000 feet—just as I was learning to fly—I had been delighting myself, and entertaining earth folk, with some aerial manoeuvres in a Blériot monoplane. Nowadays, when trick flying is a fine art, such evolutions as I was achieving then would pass almost without notice, but at the time, I certainly thought I was performing rather well—remembering the fact that I was a beginner. Suddenly I attempted a steeply banked turn. I had done identically the same thing just before, in an apparently similar way, but this time, something happened. Perhaps, at that critical instant when my planes—being poised some changed gust of wind threw it into the balance. At any rate, I found I had no control at all over my machine, and the next moment, plunging down headlong—although, luckily, from no great height—I found myself, with a sadly wrecked craft, lying in the bed of a shallow stream. I escaped with a shaking, fortunately, but such experiences have a salutary effect. They teach one that in the navigation of the air man is—despite his growing store of knowledge—still the merest novice. And it is good that he should be chastened thus."

NO LAUNDRY BILLS.

He was an optimistic soul and a sportsman—a combination that made him a friend to booties, both directly and indirectly. His pals, whom he infected with his enthusiasm, followed his tips blindly, with more often than not disastrous results.

"See what you've done," yelled one of his friends after a race. "And you told me I could put my shirt on that horse."

"And did you?"

"Yes—worse luck."

"Well, then," replied the optimistic sportsman, "see the money you'll save on laundry bills!"

CONFERENCE OF GRADUATES

Wellesley, Mass., June 30.—Wellesley College and the Boston Normal School of Gymnastics, which recently combined to establish a department of physical hygiene and physical education at Wellesley today are holding a conference of graduates of both institutions which have gone into physical education work to lay out a program for next year.

Mr. and Mrs. Moses A. Perkins, of Rippington, returned home Monday evening after passing several days at Hampton Beach.

NAVAL OFFICERS ANXIOUS FOR REPORT OF PLUCKING BOARD

Naval officers are peculiarly interested this year in the results of the naval-plucking board, the findings of which will be revealed on Tuesday. It is expected that the maximum number of officers, fifteen, will be recommended for transfer from the active list. Secretary Daniels will decide whether the Navy Department will consider favorably any of the applications for retirement received from officers who desire to be voluntarily retired. There are no less than twenty of these applications, most of them from officers of the grade of lieutenant and commander. In previous years officers with that rank were not retired, and the recommendation to adopt this rule was made to Secretary Daniels some days ago, but he preferred to defer action in the matter until the day before the plucking board should finally meet.

An impression prevails that Mr. Daniels does not intend to allow any officers voluntarily to retire this year. It is a surprise to most observers to learn that there are any applications for retirement, it having been predicted at the capital that no officer would ask to be transferred from the active list, inasmuch as the law has been so amended that retirements, either by application or by recommendation of the plucking board, occur without promotion to the next higher grade. The withdrawal of this inducement to retire was regarded as the purest means of discouraging officers from seeking retirement, but the law has not worked out that way.

More officers have applied for retirement this year than ever before. This is attributable to the impression that retirement by the plucking board reflects in some degree upon the officer thus separated from the active service. It is that phase of the situation which is regarded as justifying further amendment of the personnel law and doing away with the plucking board. There is so much opposition to the abandonment of this system, however, and so much support of it in Congress that it is likely to be concluded indefinitely, especially now that officers are not retired with the next higher grade. The announcement of retirements on the application of officers will be made in all probability on Monday, to be followed the next day by announcement of the results of the plucking board.

NEW TUGS FOR NAVY.

The following bids were received at the bureau of supplies and accounts, Navy Department, Washington, D. C., under schedule 5478, for class 1, delivering at Mare Island one tug boat; class 2, delivering at Puget Sound one tug boat; class 3, delivering at work of the contractor one tug boat.

New York Shipbuilding Co., Camden, N. J., two tug boats, first to be delivered in 12 months, second in 13 months, \$240,000; bid No. 2, three tug boats, first in 12 months, second in 13 months, \$300,000; bid No. 3, three tug boats, first in 12 months, second in 13 months, \$300,000; bid No. 4, three tug boats, first in 12 months, second in 13 months, \$300,000; bid No. 5, three tug boats, first in 12 months, second in 13 months, \$300,000; bid No. 6, three tug boats, first in 12 months, second in 13 months, \$300,000; Miss Anna May Cole of Hampton
was the guests of her cousin, the
Misses Hamick, last week.

Harold Rumburg of Somersworth
passed Saturday in town, with his
grandparents, Mr. and Mrs. Samuel
Dixon.

The Ladies Circle connected with
the Advent church held its last ses-
sion with Mrs. Frank N. Dixon. There
was a large attendance. It was voted
to hold a food sale Thursday, July 18,
the annual apron and fancy sale the
first Wednesday in December, and to
adjourn till Oct. 2. After the business
meeting refreshments of tea cream and
assorted cake were served.

Mrs. Frank Spinnery of Portsmouth
was a recent visitor here.

The Methodist Ladies Aid Society
held its last session until autumn last
week with Mrs. Elie A. Cole.

The family of William Tobey of
Charlestown, Mass., have arrived and
opened their cottage on Riverside ave-
nue for the season.

Mrs. Albert Waterhouse of Port-
smouth was in town Sunday.

Miss Myra Ellen Cole was among
the recent graduates from the Ply-
mouth business school in Portsmouth.

John Hillhouse has arrived home
from a winter's sojourn in Cuba.

See the West Ad on Page 7.

ITEMS OF INTEREST TO NAVY YARD EMPLOYEES

Changes Among Officers

Lieut. Junior Grade F. P. Conger
has been commissioned.

Ensign Frank Slingluff Jr., from the
North Carolina to the Paulding.

Ensign D. E. Kemp to the North
Carolina.

Ensign E. D. McCormick from the
Paulding to treatment naval hospital,
New York, N. Y.

Asst. Surgeon F. B. Hart from Al-
bany reserve fleet to the Louisiana.

Asst. Surgeon P. J. Helm, to navy
receiving station, Richmond, Va.

Chief Boatswain E. J. Damon, from
the Paulding to leave.

Chief Boatswain William Spicer,
from naval station, Guantanamo,
Cuba, to treatment naval hospital,
Norfolk, Va.

Chief Machinist J. H. Busch, from
naval academy, Annapolis, Md., to the
Pine River Shipbuilding Co., Quincy,
Mass.

New Inspector

Inspector Beck of the bureau of
criminal industry has been assigned to
the duty of inspecting at this
yard in place of T. J. Sullivan trans-
ferred to Boston.

Auto Truck Helping Out

The big automobile truck of the
yards and docks was sent over to the
city today to be used in moving the
office fixtures of the purchasing pay
office from the Freeman block to the
N. H. Bank Building.

Gifts from Clerks

Walter L. Dow, a typewriter and
stenographer in the hull division, ar-
rived back from his wedding trip to-
day. The new recruit in the hull
division received a great surprise at the
noon hour today when his fellow
clerks in that department handed him
a nice lot of silver knives, forks and
spoons. The presentation speech fell
as usual in the dean of the corps, Cal-
vin L. Hayes, who is right at home
on a job of this kind. In handing over
the gift he told the recipient a few
things about married life and the kind-
ly feeling the force had for him in
their short acquaintance. Mr. Dow
came back as well as he could under
the surprise and heartily thanked the
force for the beautiful gifts.

Vulcan Arrives

The collier Vulcan, Richard J. East-
ern, commander, arrived in the lower
harbor today from Boston. The vessel
will be placed in reserve as soon as
possible after taking a berth at the
yard.

Two Days' Trial Trip

The cruiser Washington left the
yard this forenoon for the lower har-
bor and anchored between Fort Point
and Whitehead light. It is under-
stood that the ship will take a two
days' trial trip off the coast and come
back to anchor for the completion of
repairs.

Last Meeting Today

The final meeting of the "plucking
board" will be held today. The action

of the board is anxiously awaited by
the officers of the service. The duty
of this board is to cause at least forty
vacancies in the personnel annually.

150 On, 25 Waiting

The next list for examination up to
date includes 25 names. Today the
previous list of 125 names were es-
tablished on the board of employment.

Easier for the Boys

In the future the examination for
apprentices to fill vacancies in the
several departments will be non-eco-
nomical according to the civil ser-
vice ruling.

Back on the Job

John S. Chichester, janitor at the
administration building who has been
on the sick list since May 19, re-
turned to duty today.

Twenty-Three for Examination

The board to examine the appli-
cants for the position of master mech-
anic in the machinery division, met
on Monday to look over the papers of
the several applicants. It is un-
derstood that 23 have filed papers for
the same which will be held shortly.

Only 400 on List Now

The civil service board in the re-
cent examination of papers at the
Charlestown yard placed only 400
names on the eligible list at the labor
board office. When the previous list
for employment existed at this station
2000 names were recorded.

The Herald Hears

That there was something doing at
the L. W. W. meeting on Sunday.

That Portsmouth can get along very
well without this organization.

That the swimming pool for the
play ground would be the real thing
this weather.

That the next meeting of the Gov-
ernor and council will be July 9.

That this is hard weather for the
horses.

That a good driver will see that
his animals are properly handled dur-
ing the heated season.

That Tommy and his friends will
make no more dates of the Plains.

That the fellows that stole the girls
have one coming to them.

That a number of young ladies from
this city are bound to learn the art of
swimming.

That it is not the worst thing they
could take to.

That a jury in Missouri says a kiss
is only worth 50 cents.

That is cutting it down some from
the price in Portland where the jury
placed a value of \$75.

That you can estimate the amount
from sweetness in the rosy lips of the
girl in the West and the girl in the
Pine Tree State.

That up in Franklin, N. H., they are
seeing black snakes seven feet long.

That that town certainly cannot be
on the dry list.

That the stretch from some of the
sewer traps about town are decidedly
hard and strong.

That the local tax assessors can give
no figures yet as to the next rate.

That they are still having it out
with the state board.

That the amendment added to the
tax assessing bill at the last session
of the legislature puts the state board
in absolute control.

That the city and town assessors
have hardly a look in when it comes
to authority.

That the girl who was not a June
bride may feel disappointed.

That she ought to cheer up as a
July bride is just as pretty and lives
just as long.

That a few special police will do
duty on the night of July 3.

That the K. of C. base ball team
needs a few new faces.

That the worst thing about a Sun-
day outing is the next day.

That there is no truth in the report
that the Kittery firemen are practis-
ing the Broadway Shiver and Mucil-
age Glide for Friday night.

That fifty years ago the Grand
Army greeted the men in grey with
bullets.

That they are greeting them today
with the glad hand and a song.

RAILROAD NOTES

The Wolfboro passenger was late
arriving here this morning owing to
the blowing out of a cylinder head on
the locomotive at Milton.

It is officially announced in Man-
chester that the Canadian Pacific this
year will expend \$100,000,000 in ex-
pansion and extension.

The Western Passenger Association
which has hoped to maintain a mini-
mum fare of two cents a mile in
winter where the law fixes two cents
a mile as the maximum fare, will
send a committee to Des Moines to
consult the Iowa railroad commission

regarding the new law providing a
fare of one and one half cents a mile
to and from the county fairs and
other gatherings where the attendance
is 75,000 or over. The committee will
explain why two cents a mile should
be the minimum in Iowa, but expects
that the commission will not see its
way clear to do anything but enforce
the law, in which event action will
be begun in the courts to test its
validity.

The Great Northern Railroad is un-
derstood to have ordered 1000 coal
cars from the American Car and
Foundry, while the Boston & Albany
has ordered 20 locomotives from the
American Locomotive Co.

John L. Shaw, head trainmaster of
the Portland Division, Boston &
Maine has just returned from a West-
ern trip, which included his honey-
moon, and his attendance at the con-
vention of the Brotherhood of Rail-
way Trainmen, of which he is one of
the grand officers, that was held in
San Francisco. He received a warm
welcome among the railroad men of
his enlistment to the benedict army.

his enlistment to the benedict army.

John L. Shaw, head trainmaster of
the Portland Division, Boston &
Maine has just returned from a West-
ern trip, which included his honey-
moon, and his attendance at the con-
vention of the Brotherhood of Rail-
way Trainmen, of which he is one of
the grand officers, that was held in
San Francisco. He received a warm
welcome among the railroad men of
his enlistment to the benedict army.
